### **10 Laboratory Accreditation**

*This course is suitable for Key Personnel, Authorised Representatives and Approved Signatories*

This one-day course covers HOKLAS regulations concerning the routine operation of accredited laboratories. Topics covering organizational and technical aspects specified in HKAS 002 and HOKLAS supplementary criteria (non-medical laboratories), with discussions and exercises focusing on reporting compliance testing results, requirements of approval signatory and quality manager as well as application for extended and/or new laboratory accreditation.

The course is delivered by an experienced laboratory management professional with extensive supervisory experience in a HOKLAS accredited laboratory.
