3 ISO 17025 Laboratory Quality Management

Suitable for Managers, Supervisors, Approved Signatories, Authorized Representatives

This two-day course focuses on laboratory quality management. It fully explains the basic requirements of ISO/IEC 17025:2005 (the international standard which HOKLAS accreditation is based upon) and discusses the effective execution of the laboratory quality management system. Emphasis is given to the practice and application of the system to improve the reliability and productivity of laboratories. On completion of this course, participants shall have adequate knowledge to implement and manage a laboratory quality management system in accordance to ISO/IEC 17025:2005.

The course is designed and delivered by experienced laboratory management professional who has been actively involved in HOKLAS assessments and has nearly ten years of experience in laboratory operation, in which at least five years are within a HOKLAS-accredited laboratory.
